A K1ck Clan Counter-Strike Division in Spain is now a reality. After some thought and mutual understanding in the pursuit of objectives, we have decided to start competing in Spanish Leagues and Championships.

According to Smooth, player of the team, "Our main goal at this stage is to participate in WCG Spain, win it, and achieve something important in San Francisco"

The new Division is filled up with former players from clans like Liveordie and NHV, with a good background in the Counter-Strike scene.
